West Africa: Mobile Coverage 2G and 3G Service

Mobile Coverage

■ Global 3G
 ■ Global GSM (2G)
 International Boundary

This map shows the mobile coverage that has been submitted up to and including Dec 2013. Operators are asked to submit strong ($\geq -92\text{dBm}$) and variable ($\geq 100\text{dBm}$ and $< -92\text{dBm}$) signal strengths as part of their submissions. The data here includes both types but does not make a distinction between the two.
